

Request for Proposal (RFP)

For: Research Organization for Study on youth perceptions, understanding and aspirations to take actions on climate change and other global challenges

RFP Invitation Date: 06 October 2023

1 Overview of the British Council

1.1 The British Council builds connections, understanding and trust between people in the UK and other countries through arts and culture, education and the English language. We work in two ways – directly with individuals to transform their lives, and with governments and partners to make a bigger difference for the longer term, creating benefit for millions of people all over the world. We help young people to gain the skills, confidence and connections they are looking for to realise their potential and to participate in strong and inclusive communities. We support them to learn English, to get a high-quality education and to gain internationally recognised qualifications. Our work in arts and culture stimulates creative expression and exchange and nurtures creative enterprise.

1.2 We connect the best of the UK with the world and the best of the world with the UK. These connections lead to an understanding of each other's strengths and of the challenges and values that we share. This builds trust between people in the UK and other nations which endures even when official relations may be strained.

1.3 We work on the ground in more than 100 countries. In 2019-20 we connected with 80 million people directly and with 791 million overall, including online and through our broadcasts and publications. Founded in 1934, we are a UK charity governed by Royal Charter and a UK public body. Further information can be viewed at www.britishcouncil.org.

2 Introduction and Background to the assignment

The British Council of Nepal is currently undertaking 'Youth for Climate Action (YCA)' project in Nepal, with Association of Youth Organizations Nepal (AYON) as its implementing partner, to offer Nepalese youth an opportunity to engage in community level climate action (raising awareness, mitigation and adaptation) to develop their knowledge, skills, and networks to offer better, more impactful, and sustainable solutions to pressing social, economic, and environmental climate related issues through engagement of local communities. The project is providing support to bridge the gap of involvement of young women and men in policy advocacy and climate action, by building their capacity as well as providing them platforms and networks. The project provides skills and capability to young people, provide connections to young changemakers to enable them to take actions, and provide them voice and skills to deliver outcomes in

their communities. A key component of the project is to map young people's proclivity towards climate issues and help establish areas where they feel young people need support.

The British Council is planning to conduct a study to provide evidence and analysis on youth perception and understanding of climate issues and other global challenges concerning youths, and aspirations of youths to take actions on these issues. The British Council is seeking proposals from interested organizations registered in Nepal meeting the requirements provided in the ToR (Annex 4).

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. 3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

The British Council may also reject any Proposal where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the

relevant processes set out under the procurement rules. A maximum offer score of 10 will be awarded to the Proposal offering the lowest "Overall Price". Other Proposals will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

13.5 Moderation and application of weightings – The evaluation panel appointed for this Procurement Process will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall Proposal score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

13.6 The Winning Proposal(s) - The winning Proposal shall be the Proposal scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information)] obtained by the Authority relating to any self-certification or other requirements referred to at any time in this Procurement Process.
