

Research Organization for study on youth perception and understanding of climate issues and other global challenges.

CLARIFICATION QUESTIONS

S.NO	QUESTIONS	ANSWERS
1	Is there any document that can be shared regarding prior work on the project "Youth for Climate Action"?	Some information on "Youth for Climate Action" project can be found in https://www.britishcouncil.org.np/youth-climate-action . Please note the study will assess youth perception, capacity and aspirations in general, not limited to project beneficiaries or locations.
2	Does the British Council have specific programs/activities of specific organizations that they want assessed in relation to youth led programs on climate agenda?	No, we are not assessing programmes or activities but trying to understand youth's perception of Climate change and global issues affecting youth.
3	Is there a priority on the study areas for the project?	Yes, Climate change is the focus, but the study will also broadly assess youth perception on other global issues.
4	Not all areas of the country have proper internet coverage. Is there a desired proportion of urban and rural youth for digital survey as this would largely cover youths from urban places with internet facilities?	It is up to the applicant to propose best modality for collecting data with good representation of youth from diverse group including from rural areas.
5	Similarly, for FGDs and KIs, does the council already have a list of stakeholders in place that it wants involved?	Research firm could propose type of stakeholders to be consulted. Research firm will be responsible to identify and communicate with all the respondents. British Council and its implementation partner will support research firm to identify respondent stakeholders.
